SUBSTANTIAL REWARD OFFERED FOR THE SAFE RETURN OF our pretty bay mare was taken from her field in Bollington, Cheshire in the early hours of Saturday 28th June 2008. She is a lovely natured horse in the right hands but she only really trusts my husband and me. She will need to be shod in about 3 weeks and will also need the dentist.

She has a very distinctive scar on the top of her front right leg you can actually see the stitches. She means the world to us and we are absolutely devastated as are all our family and friends at the yard. Her field companions are stressed and I know she will not be happy. .If you acquired in good faith please think of the pain we are going through and contact us. We don't care where you had her from we just need her back.
